Summary

Passionate Computer Science student and Aspiring Software Engineer with strong expertise in MERN stack development and Data Structures & Algorithms in C++. Skilled in building scalable web applications, solving complex problems, and contributing to real-world projects. Eager to apply technical knowledge in internships and placements while continuously enhancing full-stack and problem-solving abilities.

Skills

Programming Languages: C++, JavaScript

Web Technologies: HTML, CSS, Tailwind CSS, React, Node.js, Express.js, Next.js

Databases: MongoDB, PostgreSQL

Tools: Git, GitHub, VS Code, AWS, Antigravity, Google Cloud, Vercel

Core CS Subjects: DBMS, Operating Systems, Computer Networks

Internship Program

Web Development Intern

September 2025 – October 2025

VaultofCodes (Remote)

- Successfully completed a 1-month Web Development Internship by delivering **6 project-based assignments with 100% on-time submission**, focused on building responsive and user-friendly web applications
- Improved webpage responsiveness and usability by 30% through optimization of layouts, navigation flow, and interactive elements across assigned projects.

Projects

CodingAdda | (MERN)

December 2025 – February 2026

- **Engineered a 100% responsive LeetCode clone** using React and Tailwind CSS, featuring a dynamic code editor (Monaco) and a mobile-first UI that increased accessibility across 4+ device categories.
- **Optimized code execution performance by 40%** by implementing **Redis Caching** and integrating the **Judge0 API**, allowing for real-time code evaluation across 3+ languages (C++, Java, JavaScript).

The Style Hub (E-commerce Platform) | React, Node.js, Express, PostgreSQL (Neon)

April 2026 – May 2026

- **Engineered a high-performance e-commerce platform** using React and Node.js, achieving a **35% faster initial page load time** through optimized asset delivery and component-based architecture.
- **Architected a robust backend migration** from local storage to **PostgreSQL (Neon)**, ensuring **100% data persistence** for user carts and product inventories across serverless sessions.

Achievements & Activities

- Solved **400+ DSA problems** on GeeksforGeeks and LeetCode, enhancing problem-solving and algorithmic skills.
- Participated in **GEEK-O-CODE 2025**, an online coding contest organized by the Department of Computer Science & Engineering in collaboration with GFG Campus Body RKGIT. (Nov 2025).

Education

Bachelor of Technology (B-Tech) – Computer Science and Engineering

Raj Kumar Goel Institute of Technology – Ghaziabad, Uttar Pradesh

Year of Passing: 2027

Current CGPA: 7.4 / 10

Class XII (UP Board)

Ramkrita Intermediate College – Piprajatampur Kushinagar

Year of Passing: 2022

Percentage: 73%

Class X (UP Board)

S K I C – Semara Kathkuiyan Kushinagar

Year of Passing: 2020

Percentage: 78%
